

A Guide to Maths Frame.

We highly recommend continued times table practise as part of your weekly homework as it will support your child's development in Maths.

Additionally, in Year 4 children will undertake a national times table check towards the end of the year which will challenge them on a variety of times table facts up to 12×12 . Children will be expected to answer a question within a 6 second window.

This may seem daunting at first, but on numerous occasions children have shown that they are all capable of achieving this.

Maths Frame is a handy online tool which exposes children to conditions very similar to that of the times table check. It is something we do frequently in class so the children are very familiar with this and there is a guide below that can help you access this wonderful resource at home.

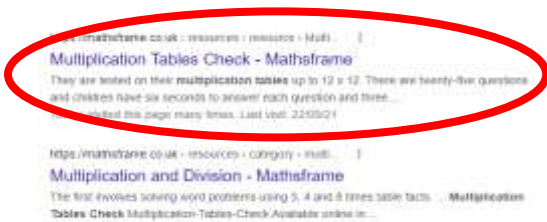

We appreciate your support with this as we know what a positive impact this will have on your child's confidence in Maths.

1. To access Maths Frame, type in Maths Frame in your search bar and you should see **Mathsframe times table check** appear as one of the options.

2. Click on or enter **Mathsframe times table check**.

3. Click on the top link (it has been circled on the picture to the side).

4. A screen like this will appear. Click on the blue play button to access the check.

Multiplication Tables Check

The table below shows the Multiplication Tables Check that will be used to assess the end of Year 4. You are given 60 seconds to answer 25 questions. You can choose the questions and tables that you want to answer. You can also choose the time you have to answer the questions. The questions are automatically timed for the time you have to answer the questions. You can also choose the time you have to answer the questions.

Multiplication Table	Number of questions to answer	Number of seconds to answer each question
2 Times Table	5	60
3 Times Table	5	60
4 Times Table	5	60
5 Times Table	5	60
6 Times Table	5	60
7 Times Table	5	60
8 Times Table	5	60
9 Times Table	5	60
10 Times Table	5	60
11 Times Table	5	60
12 Times Table	5	60

5. To start the game, click begin and you're good to go!

If you want to remove times tables (e.g. 6 times table) you can do so by clicking on the adjust difficulty screen. You can also add or remove time on this option.

When you're good to start, click the begin button!
